MOHAMED ALAA SALEH

Civil Engineer | Cost Estimation & Tendering | Technical Office | BIM Coordination

Riyadh, Saudi Arabia
Phone: +966 530677859 | Email: mohamedalaa834@gmail.com

PROFESSIONAL SUMMARY

Civil Engineer with 6+ years of professional experience across residential, commercial, industrial, healthcare, and governmental projects in Saudi Arabia and Egypt. Specialized in cost estimation, government tendering, Etimad submissions, quantity surveying, and technical office operations, complemented by experience in BIM coordination, project execution, and planning.

Experienced in preparing detailed BOQs and quantity take-offs, developing technical and financial proposals, analyzing tender requirements, coordinating with suppliers and subcontractors, and implementing value engineering solutions. Contributed to tendering activities associated with the growth of AlRuwais Company's recorded project portfolio from approximately SAR 82.9 million before 2025 to SAR 639.8 million during 2025–2026. Achieved measurable cost savings through quantity optimization, supplier negotiations, and technical reviews.

KEY ACHIEVEMENTS

- **SAR 639.8M company project portfolio:** Contributed through tender pricing and government bidding activities during 2025–2026, compared with approximately SAR 82.9M before 2025.
- **680+ government competitions:** Participated in a high-volume Etimad tendering workflow as part of a three-engineer team.
- **SAR 65.2M+ in awarded projects:** Reported team award value, with additional bids awaiting approval at the time of reporting.
- **EGP 4M cost savings:** Identified and corrected reinforcement quantity discrepancies across 20 villas.
- **SAR 300,000 procurement savings:** Negotiated a furniture package at approximately 30% below the procurement benchmark.
- **Improved package profitability:** Helped move an industrial speed-bump package from a projected 10% loss to a 20% profit through technical clarification and pricing review.
- **EGP 2B+ project pricing:** Prepared cost estimates and tender pricing for projects across residential, commercial, and healthcare sectors.

CORE COMPETENCIES

Cost Estimation & Tendering

- Cost Estimation, Pricing Strategies & Cost Control
- BOQ Preparation, Quantity Take-Off (QTO) & Quantity Surveying
- Government Tendering & Etimad Platform Submissions

- Technical and Financial Proposal Preparation
- Tender Compliance, Risk Assessment & Bid Analysis
- Supplier and Subcontractor Negotiations
- Value Engineering and Cost Optimization

Technical Office & Project Coordination

- Shop Drawings, As-Built Drawings and Material Submittals
- RFIs, Technical Clarifications and Invoice Review
- Civil, Structural, Architectural and Finishing Works
- BIM Coordination, 3D Modeling and Clash Detection
- Project Planning, Scheduling and Critical Path Method (CPM)
- Stakeholder Coordination and Technical Reporting

PROFESSIONAL EXPERIENCE

ALRUWAIS COMPANY — Riyadh, Saudi Arabia

Bidding Engineer & Cost Estimation Engineer | Mar 2025 – Present

- Prepare technical and financial proposals through the Etimad Platform in accordance with tender documents, government procurement requirements, specifications, and applicable standards.
- Develop and review BOQs, quantity take-offs, and cost estimates for civil, architectural, finishing, and related project packages.
- Participate in government tendering activities within a three-engineer team that has handled more than 680 competitions.
- Contribute to tender pricing and bidding activities associated with the reported growth of the company's project portfolio from approximately SAR 82.9M to SAR 639.8M during 2025–2026.
- Negotiate supplier offers, achieving reported savings of approximately SAR 300,000 on a furniture procurement package.
- Perform technical clarifications and pricing reviews to improve profitability, including an industrial speed-bump package that moved from a projected 10% loss to a 20% profit.
- Coordinate shop drawings, quantity reviews, subcontractor invoices, and technical documentation with relevant stakeholders.
- Use Aconex and ERP systems to support document control and commercial workflows.

Selected Government Clients and Project Sectors

- Saudi Red Crescent Authority
- Qatif Governorate Municipality Development
- National Center for Meteorology
- Zakat, Tax and Customs Authority
- Ministry of Sports
- Riyadh Region Municipality
- Saudi Water Authority
- Imam Abdulrahman Bin Faisal University

ELGAMAL GROUP — Egypt

BIM Technical Office Engineer | Jun 2024 – Mar 2025

- Reviewed and corrected reinforcement quantities across 20 villas, generating reported cost savings of approximately EGP 4 million.
- Developed and coordinated BIM models, structural drawings, quantity reviews, and design revisions to improve alignment between design documentation and site execution.
- Monitored concrete quantities and execution activities, supporting zero reported concrete waste on the monitored scope.
- Coordinated with site teams, consultants, and subcontractors to resolve discrepancies between drawings, BOQs, and actual site conditions.

Selected Projects

- El-Fardous Development — 6 buildings, 6 floors each, approximately 710 m² per floor.
- Gardenia Development — 22 buildings, approximately 750 m² per floor.

GEC — GENERAL & ELECTRO-MECHANICAL COMPANY — Egypt

Cost Estimation, BIM & Project Coordination Roles | Dec 2020 – Jun 2024

Project Engineer / Coordination | Jan 2023 – Jun 2024

- Coordinated technical and execution activities for high-rise residential projects, including two 12-story towers totaling more than 10,000 m².
- Reviewed structural and finishing quantities and supported value engineering initiatives that reduced concrete and plaster quantities by approximately 10%.
- Coordinated with consultants, subcontractors, and site teams to resolve technical discrepancies and support project execution.

BIM Engineer | Dec 2020 – Jan 2023

- Led a BIM team of 8 engineers supporting large-scale residential developments, including 37 villas in New Giza.
- Developed and coordinated BIM models, prepared shop drawings and quantity take-offs, and resolved multidisciplinary clashes.
- Supported design and quantity optimization initiatives associated with reported project cost reductions of approximately 10%.

Bidding Engineer & Cost Estimation Engineer | Dec 2020 – Jun 2024

- Prepared cost estimates and tender pricing for projects with a combined value exceeding EGP 2 billion.
- Developed technical and financial proposals in accordance with drawings, BOQs, specifications, and client requirements.

- Supported bid analysis, pricing strategies, tender risk assessment, and value engineering across residential, commercial, and healthcare projects.

Selected Projects

- Midtown Sky — EGP 600M.
- Misr Insurance Storage Facility — EGP 472M.
- Cleopatra Hospital — EGP 213M.

CAIRO CONTRACTING COMPANY — Egypt

Site Civil Engineer | Aug 2018 – Sep 2019

- Supervised structural and finishing works in accordance with approved drawings, specifications, and quality requirements.
- Prepared quantity measurements, progress documentation, and as-built drawings.
- Coordinated daily site activities with subcontractors and suppliers to support quality, productivity, and schedule compliance.

EDUCATION

Bachelor's Degree in Building & Construction Engineering
Faculty of Engineering, Mansoura University | Jun 2019

COURSES & PROFESSIONAL DEVELOPMENT

- API Course — 2023
- Dynamo Course — 2022
- Planning & Scheduling Diploma — 2021
- BIM Diploma — 2021
- Shop Drawing Diploma — 2021
- Finishing Course — 2020
- Site Implementation Preparation — 2019
- Structural Design Diploma — 2017 | Grade: Excellent

SOFTWARE & PLATFORMS

Engineering & BIM Software: Autodesk Revit, AutoCAD, Navisworks, Dynamo, SAP2000, ETABS, SAFE

Productivity & Data Analysis: Advanced Microsoft Excel, Microsoft Office

Project & Document Management: Aconex, Procore, ERP Systems

Government Tendering: Etimad Platform

LANGUAGES

- Arabic — Native
- English — Very Good

ADDITIONAL INFORMATION

- Location: Riyadh, Saudi Arabia
- Nationality: Egyptian
- Residency: Valid and transferable
- Driving Licenses: Saudi Arabia and Egypt
